Pakistan being the land of natural resources produces best quality fruits and vegetables rich in nutrient and taste. These fruits and vegetables are not only demanded in Pakistan but also has a large market demand around the world. SAREMCO Impex (Pvt.) Ltd. is leading grower, producer and exporter of premium quality fresh fruit and vegetables. SAREMCO Impex (Pvt.) Ltd. is a subsidiary company of SAREMCO Group and is one of the fastest growing groups in Pakistan.

We mainly deal in exports of Mangoes, Citrus / Kinnow, Apple, Apricot, Banana, Cherry, Peach, Guava, Litchis, Strawberry and vegetables like Potato, Onion, Bitter melon/ Karela, Loki, Long Gourd, Brinjal, Green Peas, Carrots etc; Dry Fruits like Pine Nut/Chilgoza, Walnuts. We provide consistent supply of seasonal fresh fruits and vegetables in the most competitive prices available around the globe throughout the year, which is based on our long term established relations with well-known and dependable growers of fresh fruits and vegetables throughout Pakistan;

GROWTH STAGES

KINNOW GROWTH STEPS

- Sprout development from eyes on seed tubers and grow upward to emerge from the soil.
- Leaves and branch stems develop from above ground nodes along emerged sprouts.
- Roots and stolons develop at below ground nodes.
Photosynthesis begins.
- Tubers form at stolon tips but are not yet appreciably enlarging.
- In most cultivars the end of this stage coincides with early flowering.

KINNOW

Saremco Impex (Pvt.) Limited is one of the top exporter of fresh mandarin Kinow from Pakistan which is citrus fruit variety Mandarin mostly grown in thhce of Punjab.

Our fresh premium quality mandarin kinnows are washed waxed and graded on automaticplant and packed in attractive boxes before export.Kinoow is consumed as direct fruit as well as juice (fresh and concentrates).

- Many Pits

Critical Success Factors

Naturally
Fertilized
Orchards

Large Farm
Sizes

Global
G.A.P.
Certificated
Farm

Kinnow Benefits for Treating & Preventing Ulcers:

Ulcers generally appear in the small intestine and stomach. The occurrence of ulcers sometimes becomes a major reason of constipation because in this case, the consumed food particles can't break down properly.

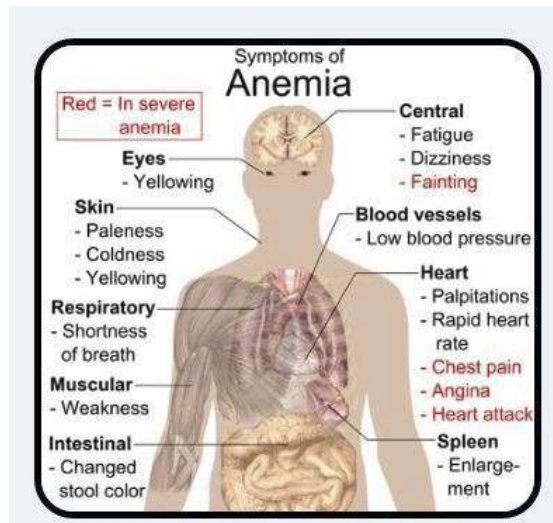

The orange juice is very advantageous in treating and preventing ulcers (5). It also stimulates the digestive system

Kinnow Treats Anemia:

Anaemia is a condition that generally occurs due to insufficient red blood cells in hemoglobin. Iron deficiency is the leading reason behind this situation.

Orange juice provides a good quantity of vitamin C that promotes the absorption of iron into blood stream. That's why most doctors suggest the anaemia patients to consume orange or its juice on regular basis.
